

“The U.S. and European imperialists and their imperialist alliance, the EU, condemn Hamas and openly support Israel and its aggression. To support the aggression against the people, rejecting equality of rights, is the character of the imperialists who attack the peoples. And already Israel, as the ‘advanced post’ of imperialism in the Middle East, supported by the imperialists and gaining strength from them and their support, is continuing its occupation, denial of rights and attacking the Palestinian people. These imperialists maintain military bases and troops in the region, support their collaborators and fight among themselves to divide up the region.”
