## ABOUT THE AUTHOR

John Gates, the author of this pamphlet, is a member of the National Committee of the Communist Party, and editor of *The Worker* and the *Daily Worker*.

He served four years in the parachute artillery with the rank of First Sergeant in the European theatre of the war against the fascist Axis powers. Earlier, he distinguished himself as a Lieutenant-Colonel in the 15th International Brigade of the Spanish Republican Army, defending Spain's freedom from the fascist butcher, Franco, who was backed by Hitler and Mussolini.

This pamphlet contains the report delivered by Mr. Gates at the 15th National Convention of the Communist Party, held in New York, December 28-30, 1950.

Mr. Gates is one of the eleven Communist leaders convicted in the notorious Foley Square "thought control" trial, and is presently free on bail while the conviction is under appeal before the U.S. Supreme Court.
