MAY DAY GREETINGS — 2022!

Dear Comrades and Friends,

As we honor our most important holiday of the year--- the day of International Working Class Solidarity --- I am pleased to share the positive May Day message from International Coordination of Revolutionary Parties & Organizations (ICOR). Despite our own significant organizational weaknesses including lack of substantial contact with other ICOR-affiliated as well as most other international anti-imperialist organizations, we remain affiliated with ICOR. And, after some consultation, I have endorsed ICOR's May Day Greeting on our behalf.

Please share this ICOR statement, *where appropriate*, with any and all working class fighters, including strikers and union organizers, and anti-imperialists including Black Lives Matter activists, Latino immigrant fighters and others fighting for social justice in the Belly of the Beast.”

Also, in the spirit of proletarian internationalism, we are including in this mailing the Resolution from *Revolutionary Organization of Labor-USA (ROL-USA)* we proposed last October to ICOR on the need to “prioritize the building of a new Communist International for our time, guided by the exemplary, outstanding and victorious historical experience of the Third Communist International.”

The ongoing war in the Ukraine that broke out in late February makes the task of establishing a New Communist International all the more urgent. For, as the enclosed ICOR Resolution correctly states: “Imperialist countries or blocs of Russia or the USA, main warmonger in the world in alliance with NATO, directly confront each other ... in a barbarous inter-imperialist war.”

With Communist Greetings,

Ray Light, General Secretary

Revolutionary Organization of Labor-USA
